

**Packs that
put you on the trail to
quality, utility and
enjoyment.**

Not since the onset of the automobile
have so many people taken to their feet for recreation.
Although camping and hiking
have always been a pleasure, adults and children
alike are hiking and pedalling more miles,
climbing more rocks, and ski touring more hours than ever before.
The average American is changing his sedentary image
to become the Active American. From rural
communities to the largest cities, people are
realizing the pleasures of being out on their own, of seeing their country
first hand, and most of all, finding time and places for personal
reflection and enjoyment.
And HINE/SNOWBRIDGE packs are helping. Quality workmanship, materials,
and design at reasonable prices are putting
HINE/SNOWBRIDGE packs on active backs from the Appalachian Trail to the snow
covered slopes of Mt. Rainier. A variety of models provide the
Active American, from the casual hiker to the serious mountaineer,
with a greater flexibility in recreational style. Whether you
choose hiking, climbing, ski touring or bicycling,
HINE/SNOWBRIDGE has the right pack for every active back.

At HINE/SNOWBRIDGE we use only the finest materials available.

FABRIC: Waterproof 8 oz. urethane coated nylon duck for durability and light weight. Some models are available in 11 oz. Cordura.

LEATHER: Chrome-tanned full grain for strength and abrasion resistance.

ZIPPERS: Self repairing; nylon for smoothness of operation and long life.

HARDWARE: Rustproof finish for long lasting appearance.

TAPE: High grade nylon for strength, abrasion resistance, and long life.

THREAD: Nylon for high strength seam construction. Double sewn at points of high stress.

HINE/SNOWBRIDGE takes pride in making packs that provide the best features available.

SHOULDER STRAPS

Swing mounted suspension systems adjusts to you and your load.

Assures the most comfortable fit possible. Length is easily adjusted while pack is being carried. Felt pads add comfort and allow shoulders to breathe.

WAIST BELT

Snaps on and off in seconds. Allows the belt to be removed when it is not needed or when it might otherwise get in the way. Adjusts from both directions to allow exact positioning of snap. Standard size fits almost everyone. Ask your dealer about large and small sizes.

ZIPPERS

Cover flaps provide waterproofing. Several models have two-way slides which allow opening from either direction for easier access.

ACCESSORY STRAP HOLDERS/Most models.

For convenience in carrying extra items such as jackets and sleeping bags.

LEATHER BOTTOMS/Some models

For extra protection against rock abrasion.

ALUMINUM STAY BARS/Some models

Give added support and are easily bent to exactly fit your back.

Can be removed when not wanted.

HINE/SNOWBRIDGE, P.O. Box 1459, Boulder, Colorado 80302

Hine Snowbridge has the right pack for every active back.

MOUNTAINEER

MOUNTAINEER

Not just ordinary hiking-climbing rucksacks, these packs combine the H/S swing mounted shoulder straps and aluminum stay bars for comfort, with the ruggedness and durability of YKK Delrin zippers and leather bottoms. Mountaineers have large (9" x 3" x 5") side pockets — large enough for a "poly" bottle and then some — and a big top flap pocket (11" x 10" x 3").

Besides three regular accessory strap holders on the top flap pocket, and an ice axe carrier, these packs have two of the H/S unique extra large accessory strap holders on the bottom for strapping on parkas and other accessory equipment.

Mountaineers have easy access to the main compartment with a draw string opening and a Fixlock slide. Definitely the top of the HINE/SNOWBRIDGE line.

Two models: Standard Mountaineer and Ski Mountaineer with ski

SKI MOUNTAINEER

SLANTLINE

Diagonal zippers make this tear drop design pack a standout.

By placing the zippers in a slant fashion, there is access into the bottom as well as the top of each compartment. Each zipper has two sliders which allows opening from either end.

Shoulder straps are swing mounted (not just sewn into a

slots behind the side pockets. Removable waist belt.

Mountaineer: 43oz. 1944 cu.in.

Ski Mountaineer: 46oz. 1944 cu.in.

The Ski Mountaineer is also available in 11oz. CORDURA cloth.

Colors: Navy Blue, Forest Green, Red, and Orange.

CHINQUAPIN

The Chinquapin has many of the features of more expensive packs, but a retail price within everyone's reach. The Chinquapin has a large volume bag, aluminum stay bars, top flap pocket, and leather bottom. The cord lock closure allows the student quick access to books. Slim design is perfect for cross country skiing. Removable waist belt.

31 oz. 1424 cu.in.

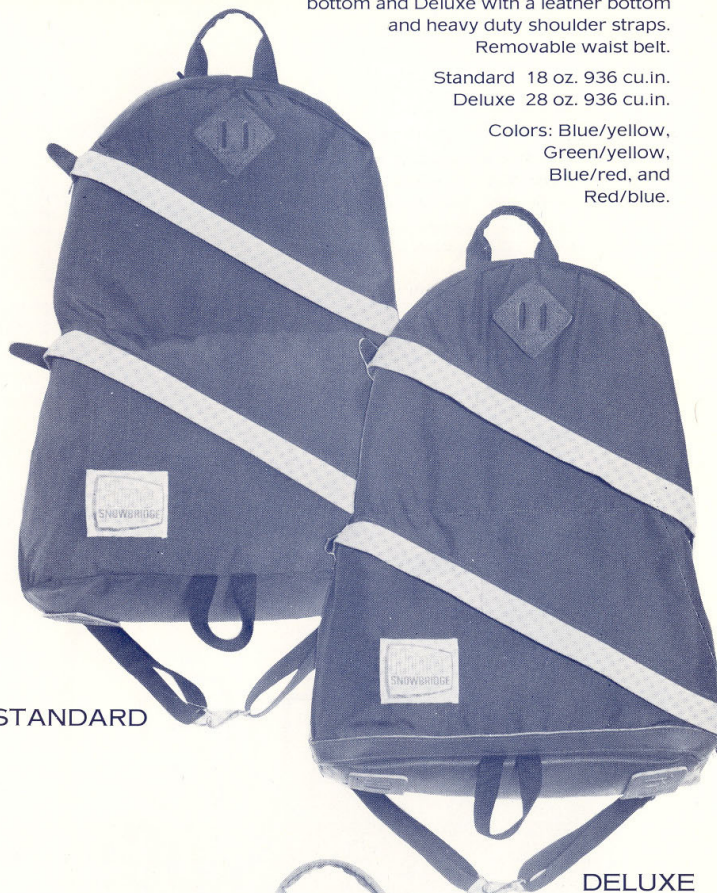

Colors: Navy Blue, Forest Green, Red, and Orange.

seam) and made from fully padded, top grain leather. The Slant Line is available in two models: Standard with a nylon bottom and Deluxe with a leather bottom and heavy duty shoulder straps. Removable waist belt.

Standard 18 oz. 936 cu.in.

Deluxe 28 oz. 936 cu.in.

Colors: Blue/yellow, Green/yellow, Blue/red, and Red/blue.

STANDARD

DELUXE

DAY PACK

31 oz. 1424 cu.in.

Colors: Navy Blue, Forest Green, Red, and Orange.

DAY PACK

A rectangular pack with a 16" zipper all the way across the top front. The Day Pack is a perfect companion for the light hiker or student. While designed for the economy-minded individual, the Day Pack has most of the H/S features included top grain, fully padded shoulder straps and the H/S removable waist belt. Made of 8oz. (not 6oz.) waterproof coated nylon. This pack also features rain flaps over the zippers and a handy front pocket to separate those small necessities which always seem to filter to the bottom. Removable waist belt.

16oz. 900 cu.in.

Colors: Navy Blue, Forest Green, Red, and Orange.

POWELL PACK

Designed for ski touring, light hiking, and climbing where the user wants the maximum in shoulder freedom. The Powell Pack is light enough to be put into a frame pack to be used as a second pack on those side trips where the frame is too bulky. On a climb, the Powell Pack allows more freedom of movement and a more enjoyable day. While ski touring, the Powell Pack releases the shoulders and permits a longer, more comfortable stride. Available in Cordura cloth only.

11 oz. 470 cu.in.

Colors: Navy Blue and Red.

BELT PACK

A small pack designed for many uses. In the summer it fits under a bicycle seat to hold those few tools and tire repair kit that everyone should carry. In the winter, touring waxes are right at the wearer's belt. Added to a frame pack belt, this pack meets many needs from carrying field notebooks to trail snacks. A great sorter for larger packs!

2oz. 70 cu.in.

Colors: Navy Blue, Forest Green, Red, Orange, and Yellow.
